A fun game to strengthen students' skills in problem-solving, critical thinking, math operations, and communication!

## Features

Challenge your students to successfully manage their own small business with this exciting simulation! The appealing graphics, animations, and sounds of **Hot Dog Stand: The Works** create a stimulating learning environment where students practice critical math, problem-solving, and communication skills including:

- arithmetic operations
- data analysis
- working backwards
- translating information into different forms
- estimation
- creating and interpreting graphs
- choosing appropriate tools
- data gathering
- recognizing patterns
- writing

As students take on the role of a vendor who runs a hot dog concession stand at a sports arena, they will gather information from a variety of sources, keep records, plan pricing and selling strategies, make informed decisions based on the analysis of specific data, and deal with the unexpected events that can occur while running a business. **Hot Dog Stand: The Works** provides handy tools that let students estimate, calculate, and graph data as they work toward their goals. Students can use the word processor to reflect on what they have learned.
