“I love Sunburst’s Web Workshop! Thanks for such a thorough and easy-to-use product that is affordable to classroom teachers and in the lab!”

Pam Burish, Technology Coordinator
Dodson School, Hermitage, TN

Features

Anyone can create Web pages with **Web Workshop™ 2.0**. There is no need to learn any HTML or other programming language. Students and teachers can easily collaborate to create Web projects. Your students select backgrounds and pictures – add text, sounds, and links with a click of a button!

Adding Artwork

Web Workshop™ 2.0 comes with over 40 backgrounds or create your own with the paint tools. Add pictures from our extensive clip art library or import your own.

Adding Links

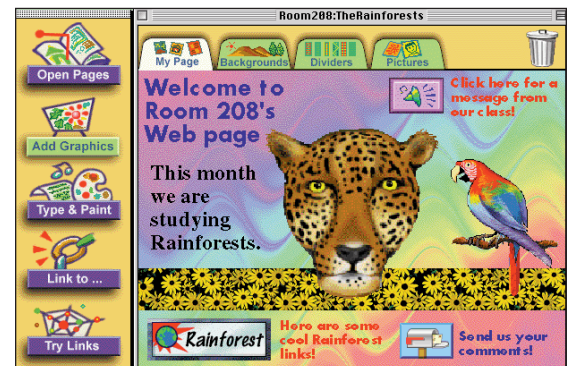

Link to any Web site, select from our pre-created links, or link your pages together.

Viewing Your Pages

Once finished, the built-in *Publish* feature creates the necessary HTML. Then you can send your pages to either your school server or Sunburst’s Web server for the world to see!

Students create Web pages quickly and easily with **Web Workshop™ 2.0**.
