

Learn About Earth Science: Astronomy

Special Offer
10 for 1

Grades K-2

Minimum System Requirements

Macintosh: System 7.0 or higher, 8 MB RAM (16 MB RAM recommended), 68040 processor or better, 640x480 screen resolution, 4X CD-ROM drive or faster, 20 MB hard disk space, 256 color

Windows: Win 95, 98, Win NT/2000, 8 MB RAM (16 MB RAM recommended), 486/DX2-66MHz processor, 640x480 screen resolution, 4X CD-ROM drive or faster, 20 MB hard disk space, 256 color, SVGA compatible video card and monitor

Features

Students explore the night sky, discovering our sun, the planets in our solar system, and the earth's moon. Through visually exciting narratives, students learn about telescopes and the other tools used by astronomers to explore space. Students develop an understanding of the achievements in space travel through our solar system, and they visit deep space to learn more about stars, black holes, and constellations.

Your students' knowledge of astronomy grows as they engage in this program's easy-to-grasp presentations, which visually depict key science concepts. Students develop a solid foundation in science as they:

- Select from nine individual lessons in the program's *Learn Section*.
- Engage in clearly organized content presentations and use the auditory option to support their reading!
- Enjoy a fun review in the *Quiz Section* with multiple-choice questions that test for understanding.
- Click on the *Help* button for a friendly scientist to guide them at any point in the program.
- Take notes and write observations in an on-screen notebook with printable pages.
- Participate in three additional skill activities that reinforce and extend learning with matching, sorting, sequencing, and *Create Your Own Constellation* writing challenges.
- Take a visit to the jukebox where they can hear original songs based on the themes they have studied.
- Earn an attractive completion certificate!

Prices

Mac/Win CD	9535DH
Single	\$89.95
10 Computers	\$299.95 \$89.95
Unlimited/Network	\$999.95 \$699.95

Make the night sky come alive with this early learning science exploration.

Simple interface allows students to explore independently.
